

add language explicitly stating that banking does not guarantee ERCs under any property rights laws.

Mobile and Area Sources: The submitted rule allows reductions generated by mobile and area sources to be credited as ERCs which may be used as offsets. The rule fails, however, to provide for the federal enforceability of these credits. In addition, the submitted rule lacks language detailing how these emissions are to be quantified. Both the federal *Emissions Trading Policy Statement* (ETPS, 51 FR 43814, 4 December 1986) and the *Economic Incentive Program Rules* (EIP, 58 FR 11110, 23 February 1993) contain provisions concerning this issue. Unless language is added which describes how mobile and area source reductions are to be quantified and made federally-enforceable, EPA requires that all references to area and mobile source reductions be removed.

Proposed Action

EPA is proposing to approve, with disapproval in the alternative, the plan revisions submitted by Clark County on November 30, 1993. Full approval as a final action on these rules is contingent upon the District making the required changes listed above.

If the specified changes are not made before EPA's final action on this submittal, then EPA's final action will be a disapproval. If finalized, this disapproval would constitute a disapproval under section 179(a)(2) of the Act (see 57 FR 13566-67). As provided under section 179(a) of the Act, Clark County would have up to 18 months after a final SIP disapproval to correct the deficiencies that are the subject of the disapproval before EPA is required to impose sanctions. If the District does not correct its SIP deficiencies within 18 months, then section 179(a)(4) requires the immediate application of sanctions. According to 179(b), sanctions can take the form of a loss of highway funds or a two to one emissions offset ratio. Once the Administrator applies one of the section 179(b) sanctions, the State will then have an additional six months to correct any deficiencies. Section 179(a)(4) requires that both highway and offsets sanctions must be applied if any deficiencies are still not corrected after the additional six month period.

EPA is requesting comments on all aspects of the requested SIP revision and EPA's proposed rulemaking action. Comments received by date indicated above will be considered in the development of EPA's final rule.

Administrative Review

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Under the Regulatory Flexibility Act, 5 U.S.C. 600 et seq., EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000.

SIP approvals under section 110 and subchapter I, part D of the Act do not create any new requirements, but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP-approval does not impose any new requirements, I certify that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the Federal-State relationship under the Act, preparation of a regulatory flexibility analysis would constitute Federal inquiry into the economic reasonableness of State action. The Act forbids EPA to base its actions concerning SIP's on such grounds. *Union Electric Co. v. U.S. E.P.A.*, 427 U.S. 246, 256-66 (S.Ct 1976); 42 U.S.C. 7410(a)(2).

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Approval and Promulgation of Implementation Plans; Wisconsin

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The United States Environmental Protection Agency (USEPA) proposes to approve revisions to Wisconsin's State Implementation Plan (SIP) for ozone which were submitted to the USEPA on April 17, 1990, and June 30, 1994, and supplemented on July 15, 1994. Included in these revisions is a volatile organic compound (VOC) regulation which establishes reasonably available control technology (RACT) for screen printing facilities. Additionally, the State has submitted current negative declarations for pre-1990 Control Technology Guideline (CTG) categories for which Wisconsin does not have rules as well as a list of major sources affected by the 13 CTG categories that USEPA is required to issue pursuant to sections 183(a), 183(b)(3) and 183(b)(4) of the Clean Air Act (Act). These revisions were submitted to address, in part, the requirement of section 182(b)(2)(B) of the Act that States adopt RACT regulations for sources covered by pre-1990 CTG documents, and the requirement of section 182(b)(2)(C) of the Act that States revise their SIPs to establish RACT regulations for major sources of VOCs for which the USEPA has not issued a CTG document. In the final rules section of this **Federal Register**, the USEPA is approving this action as a direct final rule without prior proposal because USEPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this notice should do so at this time.

DATES: Comments on this proposed rule must be received on or before August 28, 1995.

ADDRESSES: Written comments should be mailed to: Carlton T. Nash, Chief,

Regulation Development Section, Air Toxics and Radiation Branch (At-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Copies of the State submittal are available for public review during normal business hours at the above address. (It is recommended that you telephone Kathleen D'Agostino at (312) 886-1767 before visiting the Region 5 office.)

FOR FURTHER INFORMATION CONTACT: Kathleen D'Agostino, Regulation Development Section, Air Toxics and Radiation Branch (AT-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-1767.
SUPPLEMENTARY INFORMATION: For additional information see the direct final rule published in the rules section of this **Federal Register**.

Dated: June 20, 1995.

[UT22-1-6925b; FRL-5265-6]

Designation of Area for Air Quality Planning Purposes; Utah; Designation of Ogden City PM₁₀ Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: In this document, EPA is proposing to revise the PM₁₀ (particles with an aerodynamic diameter less than or equal to a nominal 10 micrometers) National Ambient Air Quality Standards (NAAQS) designation for a portion of Weber County, Utah. Previously, consistent with section 107(d)(3)(A) of the Act, EPA notified the Governor of Utah that Weber County, Utah should be redesignated from unclassifiable to nonattainment for PM₁₀. The redesignation is based upon violations of the PM₁₀ NAAQS which were monitored between January 1991 and January 1993.

In the final rules section of this **Federal Register**, EPA is revising the designation of a portion of Weber County, Utah as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are

received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by August 28, 1995.

ADDRESSES: All written comments should be addressed to: Douglas M. Skie, Chief, Air Programs Branch, EPA Region VIII, at the address listed below. Information supporting this action can be found at the following location: EPA Region VIII, Air Programs Branch, 999 18th Street, 3rd Floor, South Terrace, Denver, Colorado 80202-2466. The information may be inspected between 8 a.m. and 4 p.m., on weekdays, except for legal holidays. A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Lee Hanley, Air Programs Branch, EPA Region VIII, 999 18th Street, Suite 500, Denver, Colorado 80202-2466, (303) 293-1760.

SUPPLEMENTARY INFORMATION: See the information provided in the direct final rule which is located in the Rules Section of the **Federal Register**.

Dated: July 19, 1995.

Jack W. McGraw,

Acting Regional Administrator.

RIN 2070-AC18

Trifluralin; Revocation of Food Additive Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to revoke tolerances for residues of the herbicide trifluralin in or on peppermint oil and spearmint oil, and to withdraw a prior final rule revoking those tolerances. EPA is taking this action because peppermint oil and spearmint oil are not ready-to-eat commodities, and residues of trifluralin are not likely to concentrate in ready-to-eat forms of peppermint and spearmint oil. Therefore, food additive tolerances are not required. In addition, after the

tolerances are revoked pursuant to this action, the basis for the prior revocation will be eliminated.

DATES: Written comments, identified by the document control number [OPP-300394], must be received on or before August 28, 1995.

ADDRESSES: By mail, submit written comments to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA. Information submitted as a comment concerning this document may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-300394]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this proposed rule may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found below in this document.
